1. The article evaluates the long-lasting effect of the Khmer Rouge in Cambodia.
2. The author notes that many historians view Pol Pot and the Khmer Rouge as just “normal people driven crazy by American bombing and Indochina wars in the 1970s.”
3. In response to this misconception, he notes that Pol Pot was a lot more violent than the Vietnam communist who were also being bombed. As well as most of his crimes were based on ethnicity.
